

Sketch the area you would like to turf with Sir Walter

A = the total length of the left side

B = the total length of the right side (do not include if the same as A)

C = the total length across the top

D = the total length across the bottom (do not include if the same as C)

Show the dimensions of any area you do not wish to turf. (mark this areas with diagonal lines)

Make sure all dimensions are in the same units.

IE all measurements should be in metres.

List the total of all areas you do not wish to turf

A =

B =

C =

D =

Total Area

Remove the following areas

1 =

2 =

3 =
